

FOR IMMEDIATE RELEASE

MPL Systems, Inc. and FMX Solutions, Inc. Announce Alliance

Totowa, New Jersey - April 24, 2006 – MPL Systems, Inc., a leading Information Technology professional services firm servicing the banking, brokerage, manufacturing, retail, pharmaceutical, and communications markets, announced today an alliance with FMX Solutions, Inc., to provide integration support services to clients implementing FMX Solutions' Building One asset management software.

Building One's software platform allows for the creation of a single reference database into which all data for a single or multiple sites can be stored and managed in a coherent fashion.

With the FMX Solutions facilities and asset management software system, Building One, users can manage cabling infrastructure, building layout, space allocation, asset tracking, computer and telephone networks, occupant positions, workspaces, inventories, charge-back billing, project simulations, moves-adds-and-changes, trading floors and even telecom infrastructure.

"Key to FMX Solutions's decision to partner with MPL Systems was MPL's expertise and long standing relationships with large financial services clients," said Xavier Bougot, President of FMX Solutions. "We are confident that with MPL's solid integration team in place to successfully implement our enterprise-wide product suite, FMX Solutions will expand its tri-state market presence, offering a global solution to Facilities and IT Managers in this industry sector."

"FMX Solutions' Building One allows MPL Systems to provide clients with a corporate-wide unified design, document ation and management solution," said Kelly Lavorgna, President and CEO of MPL Systems. "In utilizing the Building One software, clients will have a comprehensive set of tools to manage facilities, personnel, cabling, networks and inventory."

About FMX Solutions.

FMX Solutions is a consulting and engineering firm. Its mission is to satisfy customers seeking to optimize usage of premises and inside and outside plant.

FMX Solutions "traditional" CAFM services focus on improving asset and space utilization and rationalizing property management. IT services cover design and engineering validation, infrastructure assessment and moves, adds and changes management.

For outside plant design and maintenance, FMX Solutions provides a global solution that not only supports the design of transportation network infrastructure, but also helps clients to manage the network's day-to-day operation. For more information, visit www.fmxsolutions.com

About MPL Systems.

Providing IT solutions to the Wall Street Community since 1974, MPL Systems, Inc. is one of the largest woman-owned, privately held Information Technology Service firms in the New York Metropolitan area. Since the mid 80's MPL Systems has been a primary player in some of largest relocation efforts in the Tri-State area. Today, MPL Systems provides value-added solutions to Fortune class companies that address our client's needs for cost efficiencies, scalability, productivity, and optimization while integrating the latest emerging technologies. MPL Systems long-term success can be attributed to our commitment to providing best-in-class service while maintaining long-term client relationships. For more information, visit www.mplsyst.com.
